Req Id	Type	Description	Priority	Acceptance Criteria	Rationale	Comments
FR-001	Functional	The system shall generate an anonymized pseudo-ID for employee accounts to book counseling sessions without revealing corporate email or employee ID to the therapist.	High	Therapist dashboard displays pseudo-ID only.	The system must not be given any data to track any employee, thus an anonymised ID helps an employee connect to a therapist.	Fail conditions would include the system storing any data via tracking or residual data in any manner.
FR-002	Functional	The system shall organise a list of highly experienced licensed therapists according to their speciality, who can be contacted during or after working hours depending on both the comfort of the employee and the therapist without the system tracking these meetings through mechanisms such as the actual website or any other anonymised means of communication.	High	Therapist IDs and information are openly displayed to the employee booking interface using an anonymized ID.	Providing a list of therapists along with their contact details as well as other details would help an employee be confident in seeking the help that they would need.	
FR-003	Functional	The system shall anonymously track the long term mental well-being of the individual via the anonymized pseudo-ID and never attempt to map any employee to these anonymized IDs using other tracking mechanisms.	High	The system		
FR-004	Functional	The system shall record the changes felt by the employee prior to, and after the meeting to see the effectiveness of the session and overall enthusiasm for the pilot program along with the general feeling of the	High			

		workforce with regards to the work-life environment and balance without trying to single out any employee.				
FR-005	Functional	The system shall not attempt to coerce any information from either the patient or the therapist.	Medium			
FR-006	Functional	The employee must be provided access to an anonymous ID that is randomized and in no way traceable to them.	Medium			
NFR-001	Non-Functional	The anonymous ID must be generated every time an employee enters a website, and should they wish to continue with the old ID to continue, they shall be given the opportunity to do so.	Medium			
NFR-002	Non-Functional	The appointment scheduler must handle timezone conversions accurately across global office locations.	Low
